Iteration
# Conversation Manager - Clipboard

- **Prevent conflicting actions and improved discoverability**
  - Conversation building tools & configurations to be housed in a side "Inspector" panel with tabs to switch between them.
  - CTAs to edit to be moved to the top bar.
- **Help users make informed decision**
  - The blocks in the clipboard to indicate the number blocks in each clip with meaning ful color coding
  - on dragging, to show the ghost block as with more meaningful color coding
- **Use of metaphor**
  - added grid background to the canvas to add contrast and use metaphor of a canvas as of the "working area".

**Before**

**After**
